

Bariatric Conference and Exhibition

Date: Wednesday 7th May 2008

Time: 9.30am – 4.30pm

Content: Healthcare staff must be able to recognise, predict, prevent, treat and communicate the associated risk factors in the management of bariatric patients/ service users – paediatrics, obstetrics and adults.

The conference will enhance your awareness of the factors that may arise within bariatric care; identifying the financial implications whilst using case studies to increase your awareness of issues that may be identified within your own field.

Throughout the day you will also be given the opportunity to enhance your knowledge by visiting the various exhibition stands.

Presenter: Mary Muir UK Clinical Specialist – Bariatric BA(Hons), Dip N (Lon), FAETC, Patient Handling Certificate, Northumbria University, SRN.

Target Group: All healthcare professionals working in a hospital or community setting including: Occupational Therapists, Physiotherapists, Nurses, Carers and Moving and Handling Advisors working with bariatric service users/clients.

Cost: £35 (includes lunch and refreshments)

Appropriate clothing and footwear must be worn to participate in the practical session.
