

Bariatric Conference

Date: Wednesday 30th June 2010 - (New date)

Time: 9.30am – 4.00pm

Content: Health care staff must be able to recognise, predict, prevent, treat and communicate the associated risk factors in the management of bariatric patients/service users – paediatrics, obstetrics and adults.

This conference will enhance your awareness of the factors that may arise within bariatric care - identifying the financial implications, whilst using case studies to increase your awareness of issues that may be identified within your own field.

Presenter: Mary Muir UK Clinical Specialist – Bariatric BA (Hons), Dip N (Lon), FAETC, Patient Handling Certificate, Northumbria University, SRN.

Target Group: All health care professionals working in a hospital or community setting including: Occupational Therapists, Physiotherapists, Nurses, Carers and Moving and Handling Advisors working with bariatric service users/clients.

Cost: £35 - includes light lunch and refreshments.

Appropriate clothing and footwear must be worn to participate in the practical session.

Previous evaluations include:-

"I had a great day - very enjoyable".

"This day enabled me to change my thinking in this area".

"I will be able to utilise this information in my work."

To book this course or for further information please contact Disabled Living Training on 0161 214 4592.

VOLUNTEERS REQUIRED

Disabled Living relies on the support of volunteers who work tirelessly behind the scenes to support the free services we provide.

Do you, or anyone you know, have time to spare?

We are particularly in need of people with the following skills:

• Admin • Marketing/PR • IT • Sales
