

Trusted Assessor - Module 3: The Environment and How Minor Adaptations can Assist with Independence

Dates:

Time: 9.30am – 4.00pm

Content:

Disability Awareness

Discussion is set in the context of the Medical and Social Models of Disability. The origin of the “negative” connotations of certain words is explored. Appropriate communication and etiquette is discussed. This session ends with a powerful video which confronts common stereotypes of disability.

Access Issues

Attention is drawn to four main “areas” of disability which include mobility, visual, hearing and mental health/learning disability. Delegates complete a simple audit of the venue and are tested in a Picture Quiz. Legislation and Regulations conclude this section.

Person-Centred Assessment

Delegates, working individually, perform a Basic Task Analysis, assessing the risks of tasks and activities and consider the specific needs of disabled people.

Scenarios

Delegates whilst working in groups consider adaptations in real life situations (actual bathroom, shower, toilet etc in the venue itself) and report back to the rest of the course members.

Venue:

Burrows House Training Suite, Priestley Road Worsley, M28 2LY
